Ute BC Talking Points Reservation Spec FIP 2-2-16.docx

Hey David,

Scott was just in a meeting with Phil and I and was talking about something he sent to Phil along these lines. Do you still need some support on the background piece, or has Scott's email been shared with you? I have not seen what Scott sent to Phil. Here's some background I got from Jody, although I didn't really see a good outline of what I think you're looking for regarding air quality trends over the years for the basin.

Give a call if you have time so I could help better.

Thanks,

Chris

Hi Chris: I'm thinking that there must be a pretty good backgrounder already about the Uinta Basin's air quality over the past few years? If so, can you share? Ultimately I'd like to put together some bullets outlining the recent history, and where we are at today. Is this maybe something that Richard has?

Thanks,

D
